

BOIL WATER NOTICE

Loss of pressure in LYON MOUNTAIN WATER DISTRICT
(name of Public Water System)

BOIL YOUR WATER BEFORE USING

Bring tap water to a rolling boil, boil for one minute, and cool before using. Or use bottled water certified for sale by the New York State Department of Health. Boiled or bottled water should be used for drinking, making ice, washing dishes, brushing teeth, and preparing food until further notice.

This Boil Water Notice applies to From the intersection of Standish Road, Saranac St., School Hill Road, and Firehouse Lane North
(describe area or attach map)

What Happened ?

At about 12:00 PM (time) on FEBRUARY 24, 2026 (date) the water system lost pressure due to LOSS OF PRESSURE. When water mains lose pressure it increases the chance that untreated water and harmful microbes can enter your water.

Harmful microbes in drinking water can cause diarrhea, cramps, nausea, headaches, or other symptoms and may pose a special health risk for infants, some elderly, and people with severely compromised immune systems. But these symptoms are not just caused by microbes in drinking water. If you experience any of these symptoms and they persist, you should seek medical advice.

What is being done ?
